RESEARCH INTERESTS

Human-AI Interaction | Mixed-Methods User Research | Accessible & Inclusive Design | LLM-Mediated Communication

EDUCATION

M.F.A. in Design Science, Jiangnan University

Sep 2023 - Jun 2026 (expected) | GPA 89/100

B.F.A. in Visual Communication Design, Nanjing University of the Arts

Sep 2019 - Jun 2023 | GPA 88/100

RESEARCH EXPERIENCE

VR Cultural Heritage - Mixed-Methods Study

Jun 2024 - Jun 2025

Advisor: Prof. Feng Wang, Jiangnan University

? Designed mixed-methods study: large-scale survey (N=566) combining TAM-based SEM (SPSS/AMOS) with semi-structured interviews (N=20).

? Resulted in co-first-author publication in Heritage (2025).

Human-AI Collaboration - LLM Sustainable Products

Jan 2025 - Jun 2025

Advisor: Prof. Ken Nah, Hongik University

? Conducted SEM-ANN hybrid analysis of user behavior toward LLM-designed sustainable products; published in Applied Sciences (2025).

GenAI Accessibility - PRISMA Systematic Review

Jun 2025 - Nov 2025

Advisor: Prof. Feng Wang, Jiangnan University

? Screened 3,570 records and coded 136 publications using multi-dimensional qualitative coding framework; manuscript in preparation.

Machine Learning for Materials Synthesis

Nov 2023 - May 2024

Advisor: Prof. Mingliang Du, Jiangnan University

? Applied MLP classification with SMOTE+Tomek class balancing; published as cover article in ACS Applied Materials & Interfaces (2025).

SELECTED PUBLICATIONS (6 PUBLISHED, 2 UNDER REVIEW)

? [Co-first] VR Cultural Heritage - Mixed-Methods TAM Study. Heritage, 2025.

? Interactive Art Multi-Modal Social Media Analysis. SAGE Open, 2026. DOI: 10.1177/21582440251413067

? LLM Sustainable Products - SEM-ANN Analysis. Applied Sciences, 2025.

? Urban Ecological Public Art - Kano-FAHP-QFD. Scientific Reports, 2024.

? IOA E-Commerce - TPB-TAM-IS Model. JTAER, 2025.

? CuCo Alloys ML Study (Cover Article). ACS Applied Materials & Interfaces, 2025.

? Tropical Tourism AI. Sustainability (Under Review).

? UX Office Applications. PLOS ONE (Under Review).

TECHNICAL SKILLS

Research: SEM (SPSS/AMOS), Survey Design (N>500), ANN, Mixed Methods, Thematic Analysis, PRISMA Systematic Review, Semi-structured Interviews

Design: Figma, Unity3D, TouchDesigner, Arduino, Blender, Cinema 4D, Adobe Creative Suite, User-Centered Design

Programming: Python (scikit-learn, data analysis), LaTeX, MATLAB (basic)

SELECTED DESIGN PROJECTS

TEXTILE 2050 - Interactive digital installation (Arduino + TouchDesigner + 3D modeling). Exhibited at university gallery.

REMEMBERY - Multi-stakeholder Alzheimer's care app. Full UX from user research to high-fidelity prototype.

PORTFOLIO

Full portfolio with project images, publications timeline, and design work: gongjiaxuan.github.io

AWARDS

First-Class Scholarship, Jiangnan University (Top 5%), 2024 | National Second Prize, Milan Design Week China, 2024
Outstanding Graduate, Nanjing University of the Arts (Top 5%), 2023 | National Silver, China Innovation Competition, 2021

LANGUAGES

TOEFL: 106 | GRE: 333 + 4.0 (Analytical Writing: 4.0)
